

Rimini

By: Claire Hanson

Greetings from Rimini!!

This beautiful location is located on the Adriatic Sea (as you can see below) and has the main industry as fishing. This beautiful place is one of the most famous seaside resorts on the Adriatic Riviera.

The resort I am currently staying at is shown below has endlessly sandy beaches and over 500 bars. There are huge theme parks and bars where you can party all night long and sleep in, waking up to the beach. The resort I'm staying at is a 15 minute walk from the old town and the independent state of Marino lies to the south while Cesenatico, another seaside resort, is located north.

I ventured into the southeast end of the Corso di Augusto and came upon the Arch of Augustus, built to commemorate the construction of the Via Flaminia.

When I was walking around, I encountered the historical artifact “Tiberius’ bridge” built in the 1st century. This beautiful bridge is still standing and just as beautiful as it was long ago.
