

CAPUA

Hi mom and dad. I just arrived in the beautiful place of Capua! The first thing I did is jumped on a tour bus so I can get to know more about the place. The first thing I learned was that Capua is a city in the province of Caserta, Campania, southern Italy.

I also learned that the name of Capua comes from the Etruscan name Capue. No one really knows the meaning. About 424 B.C it was captured by the Samnites and 343 B.C implored Roman help against its conquerors. Capua entered into alliance with Rome for protection against the samnite mountain tribes. Well that's all I really learned that I remember anyway. So ill talk to u later bye!!
