

Welcome To My Summer Resort: Stabiae Italy

Hey,

We arrived in Roman Stabiae last night, where it is close to the coast of Sorrento. It is a seashore place to visit.

It has several miles of luxury villas built along the headland; it also has stunning column walkways, fountains and gardens. Gardens in which have bold frescoes and still in their vivid colors.

Stabiae along with Pompeii and Herculaneum was buried in 79AD. Only the wealth and rich lived here and they surrounded their selves with great art and architecture.
